

Part I – AC-to-DC Power Supplies

LAMBDA'S EWS SERIES

High Grade Industrial Solutions Up to 1500W

An integral EMI filter to meet FCC Class A, VDE 0871 Class A, and wide range or auto-selectable input below 600W, makes the EWS Series an ideal choice for trouble-free worldwide operations.

There are 41 models in the EWS family, up to 48V, up to 300A. Their 3.82-inch maximum height, and current sharing capability (above 300W) allows for maximum design flexibility. And all have worldwide safety agency approvals. From 15W to 1.5KW, Lambda's EWS Series is the ideal choice for process control, factory automation, and industrial computer systems.
